

AURA-7000II Series

Overview

The new AURA thermal receipt printer by POSIFLEX offers the performance, innovation, and affordability that you have come to expect. The high-resolution thermal print head provides quiet operation and the ability to print detailed graphics and bar codes for use in various applications.

The AURA clamshell design allows for easy drop-in paper replacement with auto-feed functionality. Settings include partial or full auto-cut capability and can control two cash drawers. An integrated image registration function (256KB of flash memory) allows for downloading and storing special character patterns and graphic logos.

Optional features include a wall mount bracket, selection of 24-dot or 16-dot font modes, color choice of Beige or Charcoal and support of extended print modes.

Features
